**\*\*\* Please provide a drawing/picture of where the well will be located\*\*\* (The back of this form can be utilized)**

*\*\*\*There is no fee associated with this application! The Public Works Department requests that you fill out this form and either return it to the address listed above or email it to the email provided above! Thank you for your attention to this matter!*

**\*\*\*ACKNOWLEDGEMENT AND SIGNATURE:** The City of Becker residents and businesses who use shallow well pumps for lawn irrigation must contact The City of Becker Water Supply Department at 763-262-4331 and register their shallow well. A Water Supply Employee will inspect the well to make sure there is not a cross connection to the City's water supply. A sticker will then be provided to the resident to be illustrated in a noticeable location, so that authorities will know that a shallow well is being utilized for irrigation instead of City Water.
